**Glorious News.**  
Comes from Dr. D. B. Cargile, of Washita, I. T. He writes: "Four bottles of Electric Bitters has cured Mrs. Brewer of scrofula, which had caused her great suffering for years. This shows what thousands have proved,—that Electric Bitters is the best blood purifier known. It's the supreme remedy for eczema, tetter, salt rheum, ulcers, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Only 50 cents. Sold by S. J. Hodgkinson Druggist. Guaranteed.

UNITED STATES SENATORS ELECTED BY THE PEOPLE.

The press of the country, largely regardless of party lines, seems to have lately arrived where it should have been twenty years ago, to have occupied the position too often claimed it is in. We refer to the late agitation there is over the election of United States senators by the people. The people have been aware of danger to the country and its theory of government through the present mode of electing United States senators for a period equal to the time mentioned, but the press during that time has been silent upon the subject.

The chief cause perhaps for silence has been that it might lead to reform, which was not desired by a majority of newspapers. Corruption has become alarming and the better sense of the people has become pronounced in its expression in favor of reform, which the press is taking up as a matter forced upon it, believing perhaps there will be no sacrifice of patronage or popularity by taking a step in advance of the worn out rut it has followed as directed by the capitalized interests of the money power.

There has been very little criticism of the methods that have been used, or of the villainy that has been practiced for years by the combined monied interests of the country to over-reach the masses and enslave the people to the power of illegitimate monied combinations. There has been a remarkable silence upon questions that were before the country for solution. Chief among these questions has been and will continue to be the silver agitation. The people were not informed upon the financial side of the question there is in their interest, and it was permitted to go by default by the press, and it continues to be largely disregarded on their side of the question.

The people are becoming better informed respecting the question, and as information is received their minds are opening to its size and its consequences to them. It is not so much a question about the convenience in exchange, in which light it has been usually treated, as it includes progress in civilization and the liberty of mankind. The question in its scope includes slavery of the world to money and to those who control it, or the freedom of mankind to exercise God-given rights to man, for which cause its magnitude over the question of the election of senators by the people, which is merely one of the results of money is large.

An enlightened world will continue to meet the evils that will continue to arise from money control through the gold standard, until liberty is again given to mankind through remonetization of silver. As money became plentiful, caused by the discovery of mines containing the precious metals, it began to devise ways and means to continue its dominion over the people. The cause for its efforts to continue its dominion was and is that the people and their intelligence, should money continue plentiful, would exercise dominion in the world, equal to those who control large money and property interests, which is the goal that the world is trying to reach and will secure.

To prevent any such condition the means were devised to control the increase of money through the demonitization of silver which will have the effect desired and the power of money will be perpetuated and the English lord idea, that money has always ruled and always will. Which idea will receive its force through the scarcity of money. When money had become plentiful the world moved as it had not moved before and the advance made in the last fifty years is accounted for. Before money became plentiful man was largely under its power, and when under its power he was its slave, but when money became plentiful he became free from its power and the world in our time has recorded the effect of his freedom. The effort of the money power is to recover its lost prestige and power over the people by re-enslaving them and the means used has been the demonitization of silver to make money as scarce as it was before the discovery of the great mines.

United States Senators, the people are of the opinion, should be elected by them to remove the inducement there is to those who have acquired money from rich mines or by other means to buy legislatures and thereby secure a seat in the United States Senate, which is the proper thing to do as present conditions are. The Montana-Clark case is an example that he who runs may read the present and future consequences of the corrupt use of money.

The difficulty in Clark's case was the open manner in which money was used, that public attention has been directed to its use. Clark is a miner and because of that relation is not familiar with the methods that are used for the successful use of money. He should have employed Hanna or a few of those schooled in its use in Nevada and there would not have been any day-light scenes to be detailed before a committee who are friends to money and its various uses in Washington.

J. P. Jones, Nevada's Senator approximately thirty years ago, declared from the steps of the State Capitol at Carson City that there was no danger of corrupting the people by the use of money, that millions could be expended and not corrupt them. The remarks were made during a talk made in connection with J. P.'s election to the United States Senate, when he was first elected to that body. Jones was a miner or he would not have talked in that way at that time. He would not at the present time under a like relation repeat in public what was then said. Buying a seat in the Senate of the United States had not then become fashionable and public attention was not directed to it then as it is now. It was about the time that Jones went to the Senate the first time that the record of Nevada as a rotten borough began.

The writer has been absent from the JOURNAL office on a short outing. When he returned his attention was directed to an article in the Independent about the late Democratic convention at Reno, which will be noticed tomorrow.

NEWS OF THE STATE

The Wadsworth Dispatch alleges the discovery of a sixty-foot vein of ore ranging from \$5 to \$8 per ton in Location No. 2, Olinghouse district.

An antelope weighing sixty pounds dressed was killed in Lincoln county last week—the first seen there in twenty-seven years.

Frank Guthrie of Winnemucca sold his wool crop of 40,000 pounds at 15 cents per pound. The Silver State says the wool was contracted for last December. To-day the wool would have only brought 12 cents.

Rev. Willis of Battle Mountain has made a proposition to the Golconda school trustees to buy the present school building and make a church of it. Some time ago the district voted \$2,500 for the purpose of building a new school house, which will probably be done and the old one sold.

Some extensive work is being done at Virginia City, in a very quiet and unostentatious manner, looking toward the reduction of the low grade ore of the Comstock at a profit. The deposits of low grade ore, averaging probably \$5 per ton in nearly equal proportion of gold and silver, are simply immense, and the greater part near the surface. These bodies of ore have all been blocked out, and there is nothing to do but to quarry them out.

A Shooting Affray.

Yesterday morning there came near being a killing in Long Valley. It appears that O. P. Sturgeess was crossing land owned by J. M. Rhodes. The latter ordered him to abscquatulate, but Sturgeess answered the demand with a shot, which missed its mark. The sheriff of Lassen county was summoned and, arresting his man, took him to Susanville.

We have saved many doctor bills  
since we began using Chamberlain's  
Cough Remedy in our home. We keep  
a bottle open all the time and when-  
ever any of my family or myself began  
to cough cold we begin to use the cough  
remedy, and as a result we never have  
to send away for a doctor and incur a  
large doctor bill, for Chamberlain's  
Cough Remedy never fails to cure.  
It is certainly a medicine of great merit  
and worth.—D. S. MEAKLEY, General  
Merchant and Farmer, Mattie Bedford  
county, Pa. For sale by Wm. Pinniger.

It is very hard to stand idly by and  
see our dear ones suffer while awaiting  
the arrival of the doctor. An Albany  
(N. Y.) dairyman called at the drug store  
there for a doctor to come and see his  
child, then very sick with croup. Not  
finding the doctor in, he left word for  
him to come at once on his return.  
He also bought bottle of Chamberlain's  
Cough Remedy, which he hoped would  
give some relief until the doctor should  
arrive. In a few hours he returned,  
saying the doctor need not come, as  
the child was much better. The drug-  
gist, Mr. Otto Scholz, says the family  
has since recommended Chamberlain's  
Cough Remedy to their neighbors and  
friends until he has a constant de-  
mand for it from that part of the

**Work Begins.**

Yesterday morning a big force of  
workmen employed by the Sunset  
company arrived in Reno and filed a  
page of the Palace hotel register. They  
later pitched camp near the section  
house west of town, and have begun  
erecting poles and stringing wires on  
the trans-Sierran line.

**DRAINING OF  
LAKE TAHOE**A Citizen of Nevada Writes of a  
Danger to the  
State.

EDITOR JOURNAL.—No doubt many of  
our fellow citizens have noticed by  
reading the San Francisco papers that  
certain parties are seriously consider-  
ing, at the bay city, a project to divert  
the waters of Lake Tahoe from its nat-  
ural outflow through our county to  
enrich certain communities in our sister  
State.

This proposition of diversion has  
been a matter of concern and has been  
talked of by engineers for a number of  
years.

In the Examiner of date yesterday I  
noticed that the project is becoming  
more or less seriously considered.

Indeed it appears that certain par-  
ties have already made a formal propo-  
sition to the city authorities of San  
Francisco to deliver, on certain condi-  
tions, from 30,000,000 to 100,000,000 gal-  
lons daily to the city of San Francisco  
from the waters of Lake Tahoe.

These parties making this offer are  
no doubt the representatives of Engin-  
eer A. W. Von Schmidt, who has had  
for many years in mind a project, which  
if carried out, would deprive our  
Truckee river of its principal supply of  
water. Should the scheme be consum-  
mated it is hard to estimate the effect  
on the flow of water in our beautiful  
Truckee river.

Every water user along the Truckee  
river, whether for power or irrigating  
purposes, should feel a deep interest in  
this matter. If 100,000,000 gallons of  
water are daily taken from the head-  
waters of the Truckee, it seems to me  
that the effect on our community will  
be very serious.

Without doubt all our people in  
Reno and Washoe county will agree  
that we should protest against this  
proposition of diversion of the waters  
of Lake Tahoe from the natural channel  
which is through our town and county,  
but who is ready to file a formal pro-  
test?

Just now I have no remedy to sug-  
gest; neither have I formulated any  
proposition to counteract the proposed  
diversion of the headwaters of the  
Truckee river, but feel sure that it is  
none too soon for our people to begin  
thinking of the matter.

H. H. Brock.

Reno, April 26, 1900.

**DIED BY HIS  
OWN HAND**A Carson Man Commits Suicide  
After Attempting to Kill  
His Wife.

Last evening about five minutes past  
eight C. H. Zischfeld shot himself near  
the temple, after having attempted to  
kill his wife. He died at 4:43 this morn-  
ing says the News.

The couple have been living apart  
for some time, Mrs. Zischfeld staying  
with Mr. and Mrs. Seamon in the old  
Meder house. She was sitting in the  
bay window last evening, when a bul-  
let came crashing through the side  
pane of the window, through the cur-  
tain and behind her chair without  
touching her. The curtain was drawn  
and although the muzzle of the revolv-  
er was but five feet from the lady, it  
was probably due to the curtain and the  
make of the weapon that the  
would-be assassin made such a poor  
shot.

Twenty minutes later Deputy Sheriff  
Knoblock was informed that a shot had  
been heard in the King street bakery,  
belonging to Zischfeld, and upon going  
in found its proprietor lying on the  
loange with a bullet hole just above  
his right ear.

**Very Good if True.**

It is again rumored that a deal is on  
whereby the Southern Pacific company  
is to become proprietor of the Virginia  
& Truckee railroad. This means that  
Reno will be the terminus of the South-  
ern California shortline. The basis for  
the last report is the fact that the gen-  
eral master mechanic of the Southern  
Pacific paid a visit the other day to  
Carson and took an inventory of the  
rolling stock of the road.

**ODD FELLOWS  
CELEBRATE**The Eighty-first Anniversary  
of the Founding of the  
Fraternity.

The 81st anniversary of the founding  
of Odd Fellowship in America was cel-  
ebrated in good old fashioned style last  
night in Investment hall. All the  
lodges in the city, Reno, No. 19;  
Truckee, No. 14; and Rebekahs, No. 7,  
participated in the fraternal event.

There was a big crowd present—two  
hundred and fifty or more—and when  
they could laugh no longer they cried,  
so ludicrous was the mock installation,  
a scheme that was sprung by Leeper  
and Sedgwick. George Perkins was  
the victim. He rode a mechanical  
bucking goat, was hanged by the neck  
until the concealed harness around his  
waist almost parted and was branded  
until the bacon rind on his back  
sizzled and smoked.

Other numbers on the program were  
selections by the Julian orchestra, re-  
citation by Roy Sedgwick, song by Geo.  
Ward and phonograph selections by  
S. W. Upson. A banquet and dancing  
concluded the evening's pleasures.

**GENERAL MINING NEWS**  
Notes on This Industry in Other States and Foreign Countries.  
It is stated that there will soon be in operation at the Golden Cross mines on the Colorado river in Arizona, the largest cyanide plant in the world, having a capacity of 800 tons a day, and that there is on the dump 800,000 tons, while the mine averages more than 800 tons output a day.  
Late advices from Cape Nome say the fuel supply up to December was a serious problem, and many had much trouble in getting enough to last from day to day. Piles of wood piled up on the beach were frequently stolen, and the owners stood guard over their fuel with rifles. Wood, which is very scarce, was bringing \$40 a cord and \$125 to \$150 a ton was asked for coal.  
Ira A. Wines and Ross Right of Ruby Valley were taking in the sights at the gold mines in South Cherry, where Mr. Wines has lately invested several thousand dollars. Both these gentlemen were highly pleased with the showing in the different mines. The property in which Mr. Wines invested is one of the best mines opened up in this section for some time.—White Pine News.
